LASER FAX

PRODUCT GUIDE

Quality *It's Not Important,
It's Essential!*

Dear Friends and Partners,

At LaserFax we have had the good fortune of maintaining long associations with our partners over the years. I would like to think this is more by design than by accident.

We sincerely work hard to be more than a supplier and are committed to your success. Chief among these efforts is to provide superior value in the cartridges we produce - we do this through an uncompromising commitment to quality and service while delivering very aggressive pricing.

We deeply appreciate your support of LaserFax, Inc., and we look forward to our continued partnership.

Sincerely,

*Bill Cosgrove
President*

QUALITY CONTROL / R&D

HALI COSTELLO
TRAFFIC MANAGER

Since 1991, LaserFax has offered premium quality toner cartridges in combination with exceptional customer service. Our consistently reliable, high quality products are the preferred choice for remanufacturers and office supply resellers throughout the United States.

Over the years, these relationships have evolved into full-fledged partnerships, allowing us to custom-tailor solutions to the needs of our customers. This gives LaserFax the ability to adapt in a rapidly changing industry, to build flexibility into our daily business routine, and to offer solutions where others see only challenges.

Delivering a better product, maintaining consistency in the manufacturing process, and building a real network of communication with our partners and customers... this is what keeps LaserFax - and our customers - well ahead of the competition.

IT'S NOT IMPORTANT, IT'S ESSENTIAL!

Each one of our highly trained technicians is an expert on specific cartridges, their unique components and the complete remanufacturing process required to deliver an OEM quality product.

LaserFax cartridges are built using OEM and LaserFax cores exclusively, in combination with matched vendor components, that meets or exceed OEM performance standards. To this standard, we add dedication to quality and consistency, and finish each job with comprehensive testing, quality assurance, cleaning and packaging.

**INNOVATION AND
PRECISION**

STMC verifies OEM/industry standards for yield and density

Our highly qualified technicians are more than just skilled professionals. They are craftsmen who are constantly refining their approach to the remanufacturing process to ensure that you receive a better product, on time, for less.

Our commitment to innovation and precision extend beyond just manufacturing. As a LaserFax customer, you also benefit from the following advantages:

- Priority access to technical support
- Unique vendor relationships with the largest manufacturers and distributors of consumable supplies for printers, faxes, copiers and multifunctional devices.
- Access to the latest industry innovations, product releases and component upgrades.

100% GUARANTEE

Every LaserFax toner cartridge and drum unit is **100% Guaranteed**. This guarantee also extends to the machines in which LaserFax cartridges are used. Should a LaserFax cartridge damage a machine, LaserFax will repair or replace the machine, as needed, at no charge.*

DEFECT / NEW RETURN POLICY

LaserFax requires a Return Material Authorization (RMA) number for cartridges and drum units to be returned for credit (i.e. defective or new return**).

To receive a RMA number, please call LaserFax at 800.820.0693 or you may fax or email your request to our fax at 651.294.2298 or email laserfax@laserfaxquality.com.

On receipt and check-in of your cartridge(s), a credit memo will be mailed to you. This credit may be used towards any outstanding balance or future order placed with LaserFax, Inc.

If a returned item is not a LaserFax product, you will be notified by mail of the discrepancy and credit on the item(s) will not be issued.

Quality Control representatives are available from 7:00 A.M. to 3:30 P.M. (CST), Monday through Friday to offer assistance with any issues or concerns you or your customer may have regarding our cartridges or drum units.

CORE EXCHANGE / EMPTY RETURNS

Cores are the lifeblood of our industry. All LaserFax products are sold on an exchange basis using either OEM/Virgin or our own cores. Our dealer's support in returning cores is critical to maintaining the highest quality at the lowest price for maximum value.

Core balances are monitored and though we can often supply cores to meet your needs, there are some products where cores are scarce or are very costly.

In rare instances LaserFax may require a core before fulfilling an order. This is because the core is either unavailable at any price or prohibitively expensive. The † symbol behind the LaserFax part number denotes that the particular cartridge may be available with core exchange only and to please call for availability.

All empty cores returned are logged per customer and a monthly report of your "core bank" balance is available on request.

*LaserFax reserves the right to provide parts delivered over-night or to reimburse at wholesale rate for labor and/or parts. A RMA must be issued for any LaserFax product involved in the claim. The RMA number **must** be on all documentation to receive reimbursement.

Reimbursement will be paid on the invoice and a credit memo issued for the cartridge upon Quality Control verification of the product defect.

**Restocking fee may apply
